-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 December 2009.
2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Request for Continued Examination

1. The request filed on 12/9/09 for a Request for Continued Examination (RCE) based on parent Application No. 09/812,224 is acceptable and an RCE has been established. An action on the RCE follows.

Response to Amendment

2. The amendment filed 12/9/09 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "circuitry to render the graphical user interface".

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The "circuitry to render the graphical user interface" is not supported by the specification.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Kirk et al (5,768,578).

Kirk et al ('578) discloses a circuitry, see figure 1 (105) capable of rendering a user interface.

Claims directed to an Apparatus must be distinguished from the prior art in terms of structure rather than function, *In re Danly* 263 F.2d 844, 847, 120 USPQ 582, 531 (CCPA 1959).

A claim containing a "recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus" if the prior art apparatus teaches all the structural limitations of the claim. *Ex parte Masham*, 2 USPQ2d 1657 (bd Pat. App. & Inter. 1987).

The structural limitations of claims 1-14, including "circuitry to render" are disclosed by Kirk et al ('578).

5. Claims 28-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Tanner (WO 01/59590).

As per Claim 28.

Tanner (590) discloses:

rendering a fare evaluation result table that displays fare rule summaries for fares in slices of an itinerary, the fare evaluation table having a first one of rows and columns

representing fares and a second one of rows and columns representing the fare rule summaries with fares comprising an origin, a destination and a carrier, with each one of the fares being represented by a corresponding fare code, see Figures 8A-B and 4A-B (QBNRHX QBNRHX) in of the first one of the rows and columns and with a price, see (\$612) associated with the fare displayed in a second of the first one of the rows and columns.

As per Claim 29.

Tanner (590) further discloses the table is comprised of rows that represent fares, see figure 3, Adult, Approx. Tax, Total and columns that represent rule summaries, see rules.

As per Claim 30.

Tanner (590) further discloses the columns also represent price, see figures 3, Adult, Approx. Tax, Total.

As per Claim 31.

Tanner (590) further discloses the columns represent fare combinability restrictions, see figure 4B and 8A, QBNRHX in which Q represents "controlled", R represents "Round-trip No Restrictions", X represents "weekday" (according to the FAREDEX Translation Table of columns 10 and 11 of Whitesage ('523)).

Allowable Subject Matter

6. Claims 32-35 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 102, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims as they contain the language of the claims indicated allowable by the Board of Patent Appeals and Interferences.
7. Claims 15-27, 36-39 are allowable.
8. The following is a statement of reasons for the indication of allowable subject matter:

As per Claims 15 and 36.

As per Decision by the Board of Patent Appeals and Interferences 4/10/09, the prior art of record does not disclose or fairly teach: "evaluating the retrieved fares against the retrieved rules and returning a status corresponding to pass, fail or defer."

As per Claim 19.

As per Decision by the Board of Patent Appeals and Interferences 4/10/09, the prior art of record does not disclose or fairly teach: "populate a summary table of fares and corresponding evaluations for each fare rule category, each evaluation having a status." of a fare rules summary.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas Dixon whose telephone number is (571)272-6803. The examiner can normally be reached on Monday - Thursday 6:30 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kambiz Abdi can be reached on (571) 272-6702. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
